

The way we see Europe, Estonia, Tartu and our school

The EU should accept other people more. Those of different cultural, religious and racial background deserve to be respected the way we respect ourselves.

Estonia is a small place for great actions.

When you wake up in Tartu, you feel the greatness.

Tartu Tamme Gümnaasium is a place where attitude is more important than knowledge.

We are all the same, so get together and make Europe better!

Our homeland is small but mighty!

Tartu is our home - let's stay together and make it better!

We are one!

The EU makes our life easier!

Estonia is a small country, but big things happen here!

Tartu is the birth place of the great minds!

Our school grows bigger and mightier every year!

We are united in the EU, and this togetherness takes us forward.

The small size of our country empowers our hearts

Our history and knowledge will always stay with us and with Tartu.

The variety of choices our school offers makes our future better.
