See you in
Spring 2017

Varde

14.000 inhabitants in Varde
20.000 inhabitants in the municipality of Varde

The educational system in DK

- we have an old tradition of educating people

- the education system is open to everybody

- first 10 years are compulsory, but the most pupils continue their studies

The educational system in DK

- Learning starts in preschool
- We set goals for every child
- It is important for children to learn – even more important that they use what they have learned
- We focus on competences rather than skills

The educational system in DK

- We get 2nd and 3rd chances to catch up
- The door to knowledge is always open
- We have a model of long life learning
- 10th grade – an optional year

10iCampus

- 10iCampus
- A business school
- A gymnasium
- An adult education center
- 1300 students in all

10iCampus

- Pupils who...**
- wish to be more mature**
 - generally wish one more school year in the public school**
 - wish to improve the basic skills**
 - wish a special plan because of very poor learning disabilities**

4 different curriculum tracks

...each Tuesday we do something different:

The adventure-track

The work-Art-track

The science-track

The international-track

- from 8.00-13.00 every Tuesday
- 41 students
- 3-4 teachers
- the teaching can be in English or German
- politics, culture and turism
- intercultural awareness
- global understanding
